

DC TWO

PERFECT CUT Excellent extraction starts from the perfect cut. The 65 mm flat burrs, exclusively designed for espresso, provide an extremely precise cut.

SIZE, CONTROL & PRECISION Two different coffees in a compact space. Internal temperature under control at all times, thanks to a cooling fan.

GRINDING GROUP Equipped with a rotating burr holder system, which guarantees perfect parallelism between cutting parts and a uniform grind.

VERSATILE Different modes for each grinding unit: DC Two can work autonomously in Competition mode or work as part of the Grinder Control System.

dimensions (w x h x d)	319x630x300 mm
weight	21 kg
grinding capacity	approx. 4 g/sec
hopper capacity	2 x 1000 g
max power	800 W
connected load	230/240 V, 115 V
rotations per minute	1350 (200 V - 50 Hz) U/min
grinding disc ø	65 mm
